The screenshot shows a Windows desktop environment. The desktop background is blue. There are several icons on the desktop, including folders like 'My Documents', 'My Computer', and 'Recycle Bin', and applications like 'Cool Timer', 'Adobe Reader', and 'ExamView'. The TI-83 Plus Flash Debugger window is open, displaying a CPU register window with a table of registers (A, B, C, D, E, H) and their values (00). A black arrow points to the 'CPU' window title bar. The taskbar at the bottom shows the Start button, several open applications, and the system tray with the time 8:16 AM.

11. You should now see a working calculator. You are ready to go!
